

Mirri Card

Reflective Metallic Papers

When it comes to reflective papers engineered to impress look no further than Mirri

Manufactured using an exceptionally high-quality film, the brightness of the metalized surface provides a mirror finish which is further enhanced by the smoothness of the cast-coated board to which it is laminated. With the metalized surface protected by a polyester film, this construction has a high surface energy that offers an excellent key for inks and adhesives.

Specifications

- ▶ Made in England
- ▶ High-quality film laminated to cast coated board
- ▶ Mirrored Surface

Press

- ▶ Offset/Litho

Finishing

- ▶ Foil Stamping
- ▶ Fold and glue friendly
