Kraft Packaging Boards

100% Recycled Kraft Packaging Boards

A cost-effective, eco-conscious alternative to virgin packaging boards

These 100% recycled boards are the eco-conscious choice for packaging, signage, tags and other applications that get noticed. They offer superior flatness and strength. The organic brown shade on both sides lends a natural, healthy, rugged or vintage feel to printed pieces.

Cocktail

Pearlescent Metallic Papers

Italian designer papers with a shimmering pearl sheen and a subtle, textured surface

This collection from the renowned Italian Fabriano mill comes in 12 intense shades named after mouth-watering drinks. Cocktail papers are not only intoxicating to look at, but are also enticing with a rich, tactile surface. The coating with tiny mica particles gives an appealing pearlescent sheen to the paper.

Mirri Card

Reflective Metallic Papers

When it comes to reflective papers engineered to impress look no further than Mirri

Manufactured using an exceptionally high-quality film, the brightness of the metalized surface provides a mirror finish which is further enhanced by the smoothness of the cast-coated board to which it is laminated. With the metalized surface protected by a polyester film, this construction has a high surface energy that offers an excellent key for inks and adhesives.

GIVENCHY

Mirri Boards

Gold and Silver Metallic Specialty Papers

Print short-run metallic effects with no special inks

Manufactured using an exceptionally high quality film, the brightness of the metalized surface provides a mirror finish which is further enhanced by the smoothness of the cast-coated board to which it is laminated. With the metalized surface protected by a polyester film, this construction has a high surface energy that offers an excellent key for inks and adhesives.

MirriBoard's bright, glossy finish lets you print short-run metallic effects with added dimension and value – without using special inks. You can print this stock with white ink to achieve a foil-stamped appearance and for extra special effects.

The logo for 'huge' is a bright pink circle containing the word 'huge' in a white, lowercase, sans-serif font.

Sirio Ultra Black

Smooth Satin Finish

Sirio Ultra Black is the most unique and the most intense shade of “Black”

Machine-made and refined in Italy by Fedrigoni for incredible performance and application in several mediums; the innovative composition of the alpha-cellulose pulp without carbon black dyes prevents oxidation when hot foil processes are used, and also helps reduce scuff-ability.
