Prints like paper, using regular inks, dries hard and fast

# SUPERYUPO®

Prints like paper, using regular inks, dries hard and fast

SuperYUPO is the first YUPO material that can be printed on both sides with paper inks. Say goodbye to the hassle of changing inks or reconfiguring the machine for synthetic materials. This outstanding printing medium is quick-drying and tear-resistant, with a silky smooth surface.

SuperYUPO gives you optimum performance time after time. YUPO's versatility and beauty shine through with every project due to its outstanding attributes—a smooth, bright white, 100% waterproof synthetic paper.

## Press

- ▶ Litho / Offset

## Specifications

- ▶ Paper inks can be used to print on both sides
